Art Unit: 1731

In view to the amendments to the claim the art rejections have been dropped.

Claims 32, 33, 37, 38 and 40-63 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term “begins in a flat plane having a guide surface which, considered in the web direction, begins in a flat plane for first receiving receiving the edge strip and then merges therefrom into a curved, outwardly extending contact surface for the edge strip” is indefinite. Although this language is the same as the instant specification, page 11, lines 9-16, it is not clear what this means with respect to Figure 3. The guide surface of Figure 2 is flat and extends outwardly and downwardly. It does not appear to be **curved**. Also it is not clear how the “guide panels” (54) differ from the “side walls” (56). Clarification is required.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
